| Drinking temperature | 6 °C - 8 °C                                                 |

Grüner Veltliner grapes were immediately pressed for this sparkling wine and spontaneously fermented and partly fermented in wooden barrels. The fermenting juice was filled into the bottle during the final fermentation. The result is a mineral PET NAT (naturally sparkling) with a beautiful, fine perlage and a natural yeast deposit on the bottom of the bottle, which ensures noticeable freshness.
